By deferring my loan payment(s) for the months of April and May 2020, I/we understand interest will still accumulate on the outstanding balance and that by taking advantage of the offer, the final loan payment may be extended by two months. If payments are weekly, bi-weekly or semi-monthly, the entire month of payments will be skipped. Payments made through a payroll deduction, ACH Credit or Direct Deposit will be deposited into my savings account for the months of April and May 2020. I/we understand that this skip affects the GAP coverage on your vehicle loan, the skipped payment(s) on that loan may affect the benefit amount. Please refer to your GAP protection documents. I/we will resume payments as scheduled (the unpaid interest will be collected first), and all terms and conditions will apply following the months skipped as indicated above.
